

For the reasons described by CEG in the exemption request, the NRC staff agree that it is in the public interest to grant the exemption. If the exemption is not granted, in order to comply with the CoC, CEG would have to keep spent fuel in the spent fuel pool if it is not permitted to use the HI-TRAC during loading and transport operations for seven MPC-89 at the PB ISFSI for the loading campaign beginning in June 2025, thus impacting PB's ability to effectively manage the FCDC margin. Moreover, should spent fuel pool capacity be reached, the ability to refuel the operating reactor unit is challenged, thus potentially impacting continued reactor operations.

Therefore, the staff concludes that approving the exemption is in the public interest.

Environmental Consideration

The NRC staff also considered whether there would be any significant environmental impacts associated with the exemption. For this proposed action, the NRC staff performed an environmental assessment pursuant to 10 CFR 51.30. The environmental assessment concluded that the proposed action would not significantly impact the quality of the human environment. The NRC staff concluded that the proposed action would not result in any changes in the types or amounts of any radiological or non-radiological effluents that may be released offsite, and there would be no significant increase in occupational or public radiation exposure because of the proposed action. The environmental assessment and the finding of no significant impact was published on March 6, 2025 (90 FR 11440).

IV. Conclusion

Based on these considerations, the NRC has determined that, pursuant to 10 CFR 72.7, the exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the NRC grants CEG an exemption from the requirements of 10 CFR 72.212(a)(2), 72.212(b)(3), 72.212(b)(5)(i), 72.212(b)(11), and 72.214 solely with respect to the planned loading and transport operations for seven MPC-89 at PB ISFSI for the loading campaign beginning in June 2025.

This exemption is effective upon issuance.

Dated: March 6, 2025.
