SUMMARY: The Bureau of Land Management (BLM) is announcing the rescission of the notice of intent (NOI) to prepare a resource management plan (RMP) for the Cedar City Field Office in southwestern Utah and the termination of the environmental impact statement (EIS) analyzing the potential impacts of long-term management of resources, activities, and uses within the planning area.

DATES: This rescission and termination take effect immediately.

SUPPLEMENTARY INFORMATION: Pursuant to the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the BLM published on September 10, 2010, its NOI to prepare a RMP and associated EIS (75 FR 55344). The RMP/EIS would have analyzed the impacts of long-term management of resources, activities, and uses across 2.1 million acres of public land in the BLM Cedar City Field Office. Due to the length of time since the public scoping process was completed and the changed circumstances and resource management pressures that have occurred in the planning area during that time, the BLM is rescinding its NOI to prepare a RMP and is terminating the EIS announced in the **Federal Register** at 75 FR 55344.

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the antidumping duty order on malleable iron pipe fittings from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on June 4, 2025.
