

facility in Lea County would not be significant. Likewise, the safety review concluded that the potential impacts of transporting AHF product from a deconversion facility during normal operations would not be significant.

#### *Environmental Impacts of the Alternatives to the Proposed Action*

As an alternative to the proposed license amendment, the NRC staff considered taking no action, which would leave LC 14 in effect in the license. If the condition remains in effect, UUSA would not be able to ship DUF<sub>6</sub> to a deconversion facility that produces AHF. As long as no such deconversion facility exists in the U.S., the impacts of not removing the license condition would be the same as the near-term reasonably foreseeable impacts of removing the license condition. That is, UUSA would continue to store DUF<sub>6</sub> containers onsite and could choose to ship some DUF<sub>6</sub> to a deconversion facility that produces aqueous hydrogen fluoride. If a deconversion facility producing AHF becomes operational in the future, UUSA would not be authorized under the no action alternative to ship DUF<sub>6</sub> to that facility.

#### *Agencies and Persons Consulted*

In accordance with NRC policy, on April 4, 2025, the NRC staff provided a draft of the EA to the State of New

Mexico for review. The NRC received no comments from the State.

Under the National Historic Preservation Act (NHPA), the NRC's approval of the license amendment would constitute a Federal undertaking. In reviewing UUSA's application, the NRC staff concluded the proposed action to remove LC 14 is not a type of activity that has the potential to cause effects on any historic properties that may be present. Therefore, following 36 CFR 800.3(a)(1), the NRC has no further obligations under section 106 of the NHPA.

Similarly, under the Endangered Species Act the staff determined that even if endangered or candidate species are present in the vicinity of the UUSA facility, the proposed removal of LC 14 would not affect such species or their habitats. The proposed action would not result in construction or land disturbance and operations would continue inside existing buildings. Therefore, the NRC has determined that no further consultation is required under section 7 of the Endangered Species Act.

#### **III. Finding of No Significant Impact**

The NRC staff reviewed the proposed action in accordance with the requirements of 10 CFR part 51. The NRC staff concludes that approval of UUSA's request to remove LC 14 would not significantly affect the quality of the human environment. As described in

section 4 of the EA, approval of the proposed action would only result in UUSA being allowed another option for shipping DUF<sub>6</sub> from the enrichment facility. The license amendment would not result in changes to operations at the facility and would not affect land use, ecological resources, historic and cultural resources, air quality, or water quality; would not result in construction or soil disturbance, changes to noise, chemical or waste management, or visual aspects of the facility; and would not result in staffing changes that could affect socioeconomic resources. The NRC does not expect significant radiological or non-radiological impacts on public and occupational health or from transportation effects associated with shipping DUF<sub>6</sub> to a different type of facility.

Therefore, the NRC staff has determined that, pursuant to 10 CFR 51.31, preparation of an environmental impact statement is not required for this proposed action, and pursuant to 10 CFR 51.32, a finding of no significant impact is appropriate. In accordance with 10 CFR 51.32(a)(4), this FONSI incorporates the EA summarized in this notice by reference.

#### **IV. Availability of Documents**

The documents identified in the following table are available to interested persons through ADAMS, as indicated.

Document description	ADAMS accession No.
Environmental Assessment for Proposed Removal of Condition 14 from Urenco USA's License for the National Enrichment Facility in Lea County, New Mexico.	ML25125A111
Safety Evaluation Report for Proposed Amendment 109—UUSA License Amendment Request LAR 23–07, Revise SNM–2010 to Delete License Condition 14.	ML25119A201
UUSA License Amendment Request LAR 23–07, Revise SNM–2010 to Delete License Condition 14, dated September 1, 2023.	ML23244A191
UUSA Revised Response to Request for Supplemental Information Regarding LAR 23–07, dated February 6, 2025 .....	ML25038A014
NRC Email to New Mexico Environment Department re: Request for State Review of Draft EA, dated April 4, 2025 .....	ML25125A247

Dated: June 5, 2025.

#### **NUCLEAR REGULATORY COMMISSION**

**[NRC–2025–0087]**

#### **NUREG: Report to Congress on Abnormal Occurrences: Fiscal Year 2024; Dissemination of Information**

**AGENCY:** Nuclear Regulatory  
Commission.

**ACTION:** Final report; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing NUREG–0090, Volume 47, “Report to Congress on Abnormal Occurrences: Fiscal Year 2024.” The report describes those events that the NRC or an Agreement State

identified as abnormal occurrences (AOs) during fiscal year (FY) 2024, based on the criteria defined by the Commission. The report describes seven events at Agreement State-licensed facilities and one event at an NRC-licensed facility.

**DATES:** NUREG–0090, Volume 47, is available on June 10, 2025.

**ADDRESSES:** Please refer to Docket ID NRC–2025–0087 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

• **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC–2025–0087. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: [Bridget.Curran@nrc.gov](mailto:Bridget.Curran@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). The FY 2024 AO report, NUREG–0090, Volume 47, "Report to Congress on Abnormal Occurrences: Fiscal Year 2024," is available in ADAMS under Accession No. ML25150A343.

**FOR FURTHER INFORMATION CONTACT:**

Rigel Flora, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–3890; email: [Rigel.Flora@nrc.gov](mailto:Rigel.Flora@nrc.gov).

**SUPPLEMENTARY INFORMATION:** Section 208 of the Energy Reorganization Act of 1974, as amended (Pub. L. 93–438), defines an "abnormal occurrence" as an unscheduled incident or event that the NRC determines to be significant from the standpoint of public health or safety. The FY 2024 AO report, NUREG–0090, Volume 47, "Report to Congress on Abnormal Occurrences: Fiscal Year 2024," describes those events that the NRC identified as AOs during FY 2024.

This report describes seven events involving Agreement State licensees and one event involving an NRC licensee. Seven of the AOs occurred at medical facilities, and one event involved security processes at an industrial licensee.

The NRC identified no events at NRC-licensed facilities during FY 2024 that met the guidelines for inclusion in Appendix B, "Other Events of Interest."

Two events met the guidelines for inclusion in Appendix C, "Updates of Previously Reported Abnormal Occurrences."

Agreement States are the 39 U.S. States that currently have entered into formal agreements with the NRC pursuant to Section 274 of the Atomic Energy Act of 1954, as amended (AEA), to regulate certain quantities of AEA-

licensed material at facilities located within their borders.

The Federal Reports Elimination and Sunset Act of 1995 (Pub. L. 104–68) requires that AOs be reported to Congress annually. The full report, NUREG–0090, Volume 47, "Report to Congress on Abnormal Occurrences: Fiscal Year 2024," is also available electronically at the NRC's public website at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff>.

Dated: June 5, 2025.

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. 50–614; NRC–2025–0079]**

### **Long Mott Energy, LLC.; Long Mott Generating Station; Construction Permit Application**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Acceptance for docketing, opportunity to request a hearing and petition for leave to intervene; order imposing procedures.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has accepted for review and docketed an application from Long Mott Energy, LLC (LME) for a construction permit for a four-unit reactor facility to be built in Calhoun County, Texas. In addition, the NRC is providing notice that an uncontested hearing will be held on the LME construction permit application at a time and place to be set in the future by the presiding officer for the uncontested hearing. This notice also provides the public an opportunity to request a hearing and petition for leave to intervene (*i.e.*, contested hearing) with respect to that application. The NRC staff is currently conducting a detailed technical review of the construction permit application. If the NRC issues a construction permit, the applicant, LME, would be authorized to construct its proposed reactor facility in accordance with the provisions of the construction permit. Because the application contains Sensitive Unclassified Non-Safeguards Information (SUNSI), this notice includes an order that imposes procedures to obtain access to SUNSI for contention preparation.

**DATES:** The application was docketed on March 31, 2025. A request for a hearing

or petition for leave to intervene must be filed by August 11, 2025. Any potential party as defined in § 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by June 20, 2025.

**ADDRESSES:** Please refer to Docket ID NRC–2025–0079 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

• **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC–2025–0079. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: [Bridget.Curran@nrc.gov](mailto:Bridget.Curran@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

• **NRC's PDR:** The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

• **NRC's Public Website:** The construction permit application is available under the NRC's Long Mott Generating Station, Construction Permit Application public website at <https://www.nrc.gov/reactors/new-reactors/advanced/who-were-working-with/applicant-projects/long-mott.html>.

**FOR FURTHER INFORMATION CONTACT:**
