

packaging, labeling, or compounding necessary to prepare the substance for that delivery.” *Id.* section 24:21–2.

Here, the undisputed evidence in the record is that Registrant currently lacks authority to dispense controlled substances in New Jersey because Registrant’s New Jersey controlled dangerous substance license is inactive. As discussed above, an individual must hold a New Jersey controlled dangerous substance license to dispense a controlled substance in New Jersey. Thus, because Registrant lacks authority to handle controlled substances in New Jersey, Registrant is not eligible to maintain a DEA registration. Accordingly, the Agency will order that Registrant’s DEA registration be revoked.
