

alleged in the petition,⁴ to the China-wide entity.

Final Determination

Commerce determines that the following estimated weighted-average dumping margin exists:

Producer/exporter	Weighted-average dumping margin (percent)
China-wide Entity	201.32

Disclosure

Normally, Commerce discloses to interested parties the calculations performed in connection with a final determination within five days of its public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). However, because Commerce applied AFA to the mandatory respondent in this investigation, in accordance with section 776 of the Act, and the applied AFA rate is based solely on the petition, there are no calculations to disclose.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of tungsten shot, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after February 19, 2025, the date of publication of the Preliminary Determination in the Federal Register. These suspension of liquidation instructions will remain in effect until further notice.

Pursuant to section 735(c)(1)(B)(ii) of the Act and 19 CFR 351.210(d), upon the publication of this notice, Commerce will instruct CBP to require a cash deposit for estimated antidumping duties for appropriate entries.

Commerce normally adjusts the estimated weighted-average dumping margin by the amount of export subsidies determined in a companion countervailing duty (CVD) proceeding when CVD provisional measures are in effect. However, not only has suspension of liquidation of provisional measures in the companion CVD investigation been discontinued, but

also Commerce preliminarily did not make an affirmative determination for countervailable export subsidies in the companion CVD proceeding.⁵ Therefore, Commerce has not offset the estimated weighted-average dumping margin in the table above.

U.S. International Trade Commission (ITC) Notification

In accordance with section 735(d) of the Act, Commerce will notify the ITC of its final affirmative determination of sales at LTFV. Because the final determination in this investigation is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured or threatened with material injury by reason of imports of tungsten shot from China no later than 45 days after our final determination. If the ITC determines that such material injury or threat of material injury does not exist, this proceeding will be terminated, all cash deposits posted will be refunded, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered or withdrawn from warehouse for consumption on or after the effective date of the suspension of liquidation, as discussed in the “Continuation of Suspension of Liquidation” section.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act, and 19 CFR 351.210(c).

Dated: July 7, 2025.
Christopher Abbott,
Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by the investigation is certain tungsten spheres or balls, also known as shot, that are 92.6 percent or greater tungsten by weight, not including the weight of any additional coating. In scope shot have a diameter ranging from 1.5 millimeters (mm) to 10.0 mm. Subject shot can be referred to as “Tungsten Super Shot.” Merchandise is covered regardless of the combination of compounds that comprise the non-tungsten material and whether or not the tungsten shot is additionally coated with another material, including but not limited to copper, nickel, iron, or metallic alloys.
Tungsten shot subject to the investigation may be classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheading: 9306.29.0000. Merchandise may also be entered under HTSUS subheading 8101.99.8000. The HTSUS subheadings are provided for convenience and customs purposes only. The written description of the scope of the investigation is dispositive.

SUPPLEMENTARY INFORMATION:

Background

On June 6, 2025, pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.226(i), the requesters filed circumvention inquiry requests alleging that aluminum containers completed in the third countries using aluminum foil manufactured in China, are circumventing the AD and CVD orders on aluminum containers from China¹ and, accordingly, should be included within the scope of the *Orders*.²

On June 17, 2025, we issued supplemental questionnaires to the requesters.³ On June 20, 2025, the

requesters filed their responses to our request for additional information.⁴

Scope of the Orders

The merchandise subject to the *Orders* is disposable aluminum containers, pans, trays, and lids produced primarily from flat-rolled aluminum. The subject merchandise includes aluminum containers regardless of shape or size and whether or not wrinkled or smooth. For a full description of the scope of the *Orders*, see the Circumvention Initiation Checklists.⁵

Merchandise Subject to the Circumvention Inquiries

The circumvention inquiries cover aluminum containers assembled and completed in the third countries using Chinese-origin aluminum foil, that is subsequently exported from the third countries to the United States.

Initiation of Circumvention Inquiries

Section 351.226(d) of Commerce's regulations states that if Commerce determines that a request for a circumvention inquiry satisfies the requirements of 19 CFR 351.226(c), then Commerce "will accept the request and initiate a circumvention inquiry." Section 351.226(c)(1) of Commerce's regulations, in turn, requires that each circumvention inquiry request allege "that the elements necessary for a circumvention determination under section 781 of the Act exist" and be "accompanied by information reasonably available to the interested party supporting these allegations." The requesters alleged circumvention pursuant to section 781(b) of the Act (merchandise completed or assembled in other foreign countries).

Section 781(b)(1) of the Act provides that Commerce may find circumvention of an order when merchandise of the same class or kind subject to the order is completed or assembled in a foreign country other than the country to which the order applies. In conducting a circumvention inquiry, under section 781(b)(1) of the Act, Commerce relies on the following criteria: (A) merchandise imported into the United States is of the

same class or kind as any merchandise produced in a foreign country that is the subject of an AD or CVD order; (B) before importation into the United States, such imported merchandise is completed or assembled in another foreign country from merchandise which is subject to the order or is produced in the foreign country that is subject to the order; (C) the process of assembly or completion in the foreign country referred to in section (B) is minor or insignificant; (D) the value of the merchandise produced in the foreign country to which the AD or CVD order applies is a significant portion of the total value of the merchandise exported to the United States; and (E) the administering authority determines that action is appropriate to prevent evasion of such order.

In determining whether the process of assembly or completion in a foreign country is minor or insignificant under section 781(b)(1)(C) of the Act, section 781(b)(2) of the Act directs Commerce to consider: (A) the level of investment in the foreign country; (B) the level of research and development in the foreign country; (C) the nature of the production process in the foreign country; (D) the extent of production facilities in the foreign country; and (E) whether or not the value of processing performed in the foreign country represents a small proportion of the value of the merchandise imported into the United States. However, no single factor, by itself, controls Commerce's determination of whether the process of assembly or completion in a foreign country is minor or insignificant.⁶ Accordingly, Commerce will evaluate each of these five factors as they exist in the foreign country, depending on the particular circumvention scenario.

In addition, section 781(b)(3) of the Act sets forth additional factors to consider in determining whether to include merchandise assembled or completed in a foreign country within the scope of an AD or CVD order. Specifically, Commerce shall take into account such factors as: (A) the pattern of trade, including sourcing patterns; (B) whether the manufacturer or exporter of the merchandise that was shipped to the foreign country is affiliated with the person who, in the foreign country, uses the merchandise to complete or assemble the merchandise which is subsequently imported into the United States; and (C) whether imports of the merchandise into the foreign country have increased after the initiation of the

investigation that resulted in the issuance of such order.

Analysis

Based on our analysis of the requesters' circumvention inquiry requests, we determine that they have satisfied the criteria under 19 CFR 351.226(c), and thus, pursuant to 19 CFR 351.226(d)(1)(iii), we are initiating the requested circumvention inquiries. For a full discussion of the basis for our decision to initiate the circumvention inquiries, see the Circumvention Initiation Checklists. As explained in the Circumvention Initiation Checklists, the information provided by the requesters warrants initiating the circumvention inquiries on a country-wide basis. Commerce has taken this approach in prior circumvention inquiries, where the facts warranted initiation on a country-wide basis.⁷

Consistent with the approach in the prior circumvention inquiries that were initiated on a country-wide basis, Commerce intends to solicit information from certain companies in the third countries concerning their production of aluminum containers and their shipments thereof to the United States.

Respondent Selection

Commerce intends to base respondent selection on U.S. Customs and Border Protection (CBP) data. Commerce intends to place the CBP data on each record within five days of the publication of this initiation notice, which will be available on Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. Comments regarding the CBP data and respondent selection should be submitted within seven days after placement of the CBP data on the record of the relevant inquiry.

Commerce intends to establish a schedule for questionnaire responses after respondent selection. A company's failure to completely respond to Commerce's requests for information may result in the application of facts available, pursuant to section 776(a) of the Act, which may include adverse inferences, pursuant to section 776(b) of the Act.

Suspension of Liquidation

Pursuant to 19 CFR 351.226(l)(1), Commerce will notify CBP of these initiations and direct CBP to continue

the suspension of liquidation of entries of products subject to the circumvention inquiries that were already subject to the suspension of liquidation under the *Orders* and to apply the cash deposit rates that would be applicable if the products were determined to be covered by the scope of the *Orders*.

Should Commerce issue affirmative preliminary or final circumvention determinations, Commerce will follow the suspension of liquidation rules under 19 CFR 351.226(l)(2)–(4). In the event that Commerce issues affirmative preliminary or final circumvention determinations that the products are circumventing the *Orders*, Commerce will instruct CBP to continue the suspension of liquidation of previously suspended entries and to apply the applicable cash deposit rate. Commerce will also instruct CBP to begin the suspension of liquidation and application of cash deposits for any unliquidated entries not yet suspended, entered, or withdrawn from warehouse, for consumption, on or after the date of publication of the notice of initiation of the circumvention inquiries pursuant to paragraphs (l)(2)(ii) and (l)(3)(ii). In addition, pursuant to paragraphs (l)(2)(iii)(A) and (l)(3)(iii)(A), Commerce may instruct CBP to begin the suspension of liquidation and application of cash deposits for any unliquidated entries not yet suspended, entered, or withdrawn from warehouse, for consumption, prior to the date of initiation of the circumvention inquiries, but not for such entries prior to November 4, 2021, the effective date of these provisions in the *Final Rule*.⁸ These rules will not affect CBP's authority to take any additional action with respect to the suspension of liquidation or related measures for these entries, as stated in 19 CFR 351.226(l)(5).

Notification to Interested Parties

In accordance with 19 CFR 351.226(d) and section 781(b) of the Act, Commerce determines that the requesters' requests for circumvention inquiries satisfy the requirements of 19 CFR 351.226(c). Accordingly, Commerce is notifying all interested parties of the initiation of the circumvention inquiries to determine whether aluminum containers from China, which are completed in and exported from the third countries using aluminum foil manufactured in China, are circumventing the *Orders*. In addition, we have included a

description of the products that are the subject to the inquiries and an explanation of Commerce's decision to initiate the inquiries as provided in the accompanying Circumvention Initiation Checklists.⁹

In accordance with 19 CFR 351.226(e)(1), unless the circumvention inquiries are rescinded, in whole or in part, or extended, Commerce intends to issue its preliminary circumvention determinations no later than 150 days from the date of publication of the notices of initiation of these circumvention inquiries in the **Federal Register**. Furthermore, in accordance with section 781(f) of the Act and 19 CFR 351.226(e)(2), unless the circumvention inquiries are rescinded, in whole or in part, or extended, Commerce intends to issue its final determinations within 300 days from the date of publication of the notice of initiation of the circumvention inquiries in the **Federal Register**.

This notice is published in accordance with section 781(b) of the Act, and 19 CFR 351.226(d)(1)(iii).

Dated: July 7, 2025.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Certain Uncoated Paper From Portugal: Preliminary Results of the Administrative Review of the Antidumping Duty Order; 2023–2024

AGENCY: Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) is conducting an administrative review of the antidumping duty (AD) order on certain uncoated paper (uncoated paper) from Portugal for the period of review (POR) March 1, 2023, through February 29, 2024. Commerce preliminarily finds that the sole producer/exporter subject to this administrative review, The Navigator Company, S.A. (Navigator), made sales of subject merchandise at prices below normal value (NV) during the POR. We invite interested parties to comment on these preliminary results.

DATES: Applicable July 11, 2025.
